3. Our advice process and documents

We listen first and then:

- Work with you to understand your needs, objectives, concerns and financial situation.
- Decide the scope of advice consistent with your needs and wishes.
- Explain what you can expect from the scope of advice agreed, along with any limitations you need to be mindful of.
- Present both personal strategy and financial product recommendations in a Statement of Advice ('SoA') which explains the advice, why it is appropriate and how it's likely to benefit you. It also explains any risk, implications, fees, remuneration, benefits or associations relevant to the advice.
- Where financial products are recommended, we will also provide you with a Product Disclosure Statement (PDS) or other disclosure documentation containing key information about each product recommended. This will help you make informed decisions about whether to purchase that product.

There are other circumstances where a SoA is not necessary, and you may receive other documents:

General advice — advice provided in seminars and through newsletters, which does not consider your personal circumstances.

Factual information — factual information about your investments, or financial assets, such as valuations, performance figures and progress reports.

Further advice — if you previously received advice in a SoA, we may record any further personal advice in a Record of Advice ('RoA'). Depending on the complexity of the advice we may or may not provide you a RoA. However, you may request a copy of a RoA by contacting us and can do so for a period of seven years from the date the further advice was first provided to you.

Ongoing services — If you agree to our ongoing services, we will provide you annually a Fee Disclosure Statement (FDS) which summarises the services agreed, their cost and the services received in the previous 12 months; as well as your service offer and an estimate of the fees for the next 12 months. We may also ask you to confirm periodically that you wish to continue with your ongoing advice engagement and/or these services.

4. How we are paid

With the exception of insurance we do not charge and or receive commissions. Our services are charged as explicit fees always quoted inclusive of GST. These may be calculated based on flat dollar amounts, hourly rates, or as a percentage of the investment portfolio for which we are providing advice.

All fees, both initial and ongoing, are charged based on the time and complexity of the advice sought. Initial advice fees are normally within the range of \$1,650 - \$6,600 and you will be provided with a personalised quote prior to any work proceeding.

Ongoing advice fees range typically between \$1,100 p.a. - \$11,000 p.a. Once again you will be provided with a personalised ongoing service fee quotation.

Our professional service rates per hour ranges based on the expertise and or seniority of personnel.

- Financial Adviser \$550 per hour
- Client Manager \$110 to \$220 per hour

Where we may charge asset-based fees it could typically range between 0.33% and 1.20%. As an example on a total investment is \$500,000, an asset based fee of 0.66% would equate to \$3,300 per annum.

Any execution only, no advice transactions, are charged at fee for service rates based on the time and personnel required.

As the law prohibits asset-based fees on portfolios subject to borrowed funds, we will instead agree to a flat dollar cost in these circumstances. Annually ongoing service fees may be increased as a percentage in accordance with the Consumer Price Index (CPI). Where this is relevant to your fee arrangement, this will be disclosed to you in your SoA or Ongoing Service Agreement.

Where commissions are received, an upfront commission is a one-off payment paid by the insurance product provider based on a percentage of the amount of the insurance premium you pay. This is paid at the time you purchase the insurance

Ongoing commissions are also paid by the product provider based on a percentage of the insurance premium you pay. These are generally paid each month for as long as you hold the product and while we continue to act for you.

For example, on an insurance premium of \$1,000 paying 66.00% initial commission and 22.00% on-going commission, the upfront commission would be \$660 and the on-going commission \$220 per year.

Where you nominate Mercury Wealth Management and/or your Adviser as the listed adviser on an existing insurance policy you own, we may receive ongoing commissions from the product issuer.

Where we recommend a change to any of your existing insurance products, which results in the sale of additional cover, we may receive commissions on existing life insurance products at a higher rate. We will disclose this commission and how this is in your best interests in your SoA or RoA.

Insurance only review services

Where we receive ongoing insurance commissions as the Adviser on your risk insurance product(s), we offer you claims handling assistance. Where you require a review of the appropriateness of your risk insurance policies, please let us know and we can provide you an engagement outlining the services you require and the relevant costs for your consideration.

Further details about fees, commissions and or other benefits your adviser receives for recommending investments and insurance will be available to you when specific recommendations are made in the SoA or RoA.

When we send you an invoice (e.g., for the preparation of initial advice), you can select any of the methods of payment detailed on the invoice that is most suitable to you. Please note we are however prohibited from receiving cash. Alternatively, with your consent and where appropriate, you can choose to have fees deducted from your investment or superannuation account by the platform/administration provider.

Sprout Financial Pty Ltd receive all financial services income and charges Mercury Wealth Management Pty Ltd a fixed fee to recover licence expenses. The remainder is passed back to Mercury Wealth Management and your adviser.
